

JavaScript Practice Question

- Write a JavaScript program to print the square of each number from 1 to 10 using a loop.
- Use a loop to print all prime numbers between 1 and 50.
- Create a JavaScript program that uses a loop to print all the even numbers from 1 to 20.
- Write a JavaScript program that prints the numbers from 1 to 100, but for multiples of 3, print "Fizz" instead of the number, and for multiples of 5, print "Buzz". For numbers that are multiples of both 3 and 5, print "FizzBuzz".
- Use a loop to find and print the sum of all odd numbers from 1 to 50.
- Create a JavaScript program that prints a pattern like the following using a nested loop:

*

**

- Write a JavaScript program to print the first 10 Fibonacci numbers using a loop.
- Using a loop, find the largest number in the given array: [3, 45, 6, 7, 23, 5, 7, 8].
- Create a JavaScript program to print a multiplication table for the numbers 1 through 5 using nested loops.
- Write a JavaScript program that calculates the sum of all numbers from 1 to a given number n. For example, if n is 10, the output should be 55. Use a loop to calculate the sum
